

V1252 HATCHET

Everything about this boots speaks rugged quality. The main wear seams are triple stitched and the pull-on loops are heavily reinforced for strength. The new rugged ankle support/protector and padded ankle help to provide stability on rough terrain and provide a perfect fit for all day comfort. We've lined this boot with Hydroguard® waterproof and breathable lining to keep you dry whatever the weather.

CE SPECIFICATION

EN ISO 20345:2004 S3 SRC HRO

UPPER

Full grain 'drummed' cow hide leather - durable, water resistant and breathable. Heavy duty triple stitching, ankle padding and support for extra stability and reinforced pull-on loops.

LINING

Hydroguard waterproof and breathable membrane.

FOOTBED

Full length, removable footbed made from 100% memory foam (non-compressing) and arch support. Moisture and shock absorbing.

TOECAP

Wide fitting composite. Resistant to impact of 200 Joules and thermal insulating.

PROTECTIVE MIDSOLE

Multi layer composite. Thermal insulating. Covers 100% of foot area.

SOLE

Highly slip resistant, Triple density Flexlite™ Phylon/Rubber sole. Heat resistant to approximately 300°C. Oil, acid, alkali and hydrocarbon resistant. Shock absorbing heel with defined heel breast for stability on ladders/steps.

SIZE RANGE

39 (6) - 48 (13)
